SKILLS

Programming: C++, Python, Fortran, Java, Git

Technologies: Linux, Artificial Neural Networks, Machine Learning, LLMs

Organizations: Mercer Binary Bears, Mercer Robotics Club, Upsilon Pi Epsilon

CERTIFICATIONS

AI Agent Essentials - CompTIA, 2026

a+ Cyber - CompTIA, *In Progress*

Project+ CertMaster Learn - CompTIA, *In Progress*

EXPERIENCE

Inside Support Representative

April 2026 – Present

Ardham Technologies Inc.

Albuquerque, New Mexico

- Build and validate quotes for hardware, software, licensing, and managed services.
- Cross-check product compatibility, system requirements, and vendor specifications to ensure technical accuracy
- Collaborate with Sales, PMO Engineering, and Procurement to refine quotes and ensure alignment with project scope
- Represent Ardham at customer meetings, networking events, and partner engagements to strengthen relationships, gather technical context, and support pre-sales alignment

Undergraduate Research Student

Nov. 2023 – Dec. 2025

Mercer University School of Engineering

Macon, Georgia

- Designed and delivered a machine learning curriculum for high school students and educators as part of the NASA-funded ML-Bots initiative.
- Administered an Ubuntu-based machine learning supercomputer end to end, including GPU installation, RAID configuration, storage optimization, and ongoing software/hardware maintenance.
- Researched LLM fine-tuning techniques to prototype a medical chatbot for nurses and patients, working with clinical datasets.

Fabrication Lab Teaching Assistant

Aug. 2024 – May 2025

Mercer University School of Engineering

Macon, Georgia

- Trained and supported students on 3D printing, laser cutting, and poster printing equipment, and led fabrication lab tours for prospective students and visitors.

PROJECTS

ML-Bots | *Python, Google Colab*

- Developed a NASA-funded machine learning curriculum for educators across the Southeast to implement in their classrooms.

Multi-Language Poker Game | *C++, Go, Rust, Fortran, Git*

- Developed a Five Stud Poker game in four programming languages using object-oriented programming principles.

EDUCATION

Mercer University

Macon, GA

B.S. Computer Science, Minor in Mathematics, Magna Cum Laude

Aug. 2022 – Dec. 2025
